experiences

User Experience Designer

2017 - Present

H&M

Within Business Development, lead, develop and design new concepts to improve customers' omni experiences. Involved mainly but not limited to app visioning and development, omni scenarios.

Project Manager / Interaction Designer

2016 - 2017

Centrum Wiskunde & Informatica

Coordinates researches/experiments between the research institute and partners, developing physiological sensors and multimedia technologies envisioning the future interaction between human and media.

Research Assistant / Interaction Designer

2015 - 2016

National University of Ireland Galway

Facilitates and commences interaction and product design activities for the EU funded research project, Water-nomics. Final deliverables include interactive displays and installations at four pilot sites across Europe.

Postgraduate Design Engineer

2013 - 2015

Stan Ackermans Institute

In a two-year program, I further develop my competencies and practices within the field of User System Interaction in a multi-disciplinary and multi-national working environment.

Interaction Designer (*Extreme Blue program*)

2013

IBM Netherlands

I worked in a team of four young graduates with various disciplines for the government of Netherlands, conceptualization and developing an online social platform for future self-organized society.

Owner, Designer

2008 - Present

xmflsct

xmflsct is a sole proprietorship. The main activity is to provide design-related consultancy and services. This includes but not limited to, experience design, brand identity, website design and development.

education

MSc. in Industrial Design

2011 - 2013

Eindhoven University of Technology

Highlighted competencies: 1) Experience design, 2) Social computing, 3) Cross-cultural design, 4) Interaction in lighting behaviours, 5) Business process design, 6) Design thinking. Obtain **Excellence** in graduation project.

BSc. in Industrial Design

2008 - 2011

Eindhoven University of Technology

Highlighted competencies: 1) User centred engineering, 2) Cross-cultural design, 3) Business innovation, 4) Process design, 5) Form and sensing, 6) Design and research processes.

projects

Orchestration Live Multi-screen TV Viewing, Research Collaboration 2016 - 2017

Centrum Wiskunde & Informatica, BBC

European Commission funded research project, designing an innovative tool for orchestrating live multi-screen TV viewing experiences for future TV broadcasting.

Sensing into Audiences, Research Collaboration

2016

Centrum Wiskunde & Informatica

Xinhuanet funded research collaboration, experimenting how technology can transform entertainment and media industry. The project develops early prototypes for field studies, aiming at commercialization bio-sensors.

Shenzhen Gas Museum, Exhibition Design

2015 - 2016

NorthernLight, YiPP

The assignment develops a medium-small scale museum for educating public about the potential of natural gas industry. I work as a project support during the design development and field implementing phases.

Waternomics, EU Research Project

2015 - 2016

National University of Ireland Galway

Waternomics project aims to reduce water consumption by providing water managers and consumers with timely information about water usage and water availability. I proposed to rethink accessing water - by innovating a future 'tap' of which each individual action towards consuming water become meaningful and reflective.

Touchee , Master Graduation Project

2012 - 2013

Máxima Medisch Centrum, Ronald McDonald Huis

Touchee explores the field of social computing in neonatology. By providing a set of interactive tools and related services to parents with pre-mature baby, it helps them keeping physical memories during the recovering process which is also easy shareable between parents, creating a stronger and more tangible network.
